EMBELLISHMENTS & FABRICS

Once you've found a style you like, the real fun begins! With the most expansive selection of fabrics and embellishments in the industry, GK has the colors and options you want.

CRYSTALS EMBELLISHMENTS

GK offers a large assortment of crystal embellishment options. With two crystal options - Premium and Standard – your apparel designs can sparkle and shine all while fitting within your budget!

PREMIUM SWAROVSKI® CRYSTALS

The GK Premium Swarovski® Crystal collection features authentic crystals giving your apparel the best and brightest sparkle on the mat. With an intricate and multilayered cut, which creates a diamond-like sparkle, Premium Swarovski® crystals have 4x the facets of a Standard crystal with 2.5x the brilliance. Premium Swarovski® crystals are incredibly durable featuring 10x more hotfix glue than competitor crystals to keep your stones in place. Premium Swarovski® crystals are scratch, bubble and chip free.

Since 1994, Swarovski® crystals have adorned GK leotards and apparel and offer the best brilliance and sparkle under the competition lights. Outshine the competition with Swarovski® crystals.

STANDARD CRYSTALS

The GK Standard Crystal collection offers high-quality crystals at an affordable price. Featuring crystals made in Austria, these perfectly geometric crystals are consistent in color and size. Standard crystals are also resistant to environmental influences, feature strong hotfix glue, and have a high wash resistance which keeps your apparel intact and beautiful all season long.

Premium and Standard Crystals are offered in the following sizes.

(Shown Actual Size)

● SIZE 2 mm ● SIZE 2.8 mm ● SIZE 4 mm ● SIZE 4.8 mm

	PREMIUM	STANDARD

GK is committed to providing the very best sublimation processes in the industry. We work with our fabric vendors and sublimation ink suppliers to continually improve the outcome of our sublimated garments. These improvements may affect the sublimated colors on reorders, as we continue to advance our sublimation techniques. Due to the nature of the sublimation process, GK will match the color on reorders to the best of our ability, but cannot guarantee a perfect match. Please be mindful that wear and washing throughout the season will affect the color saturation in your garment. Reorders will be processed based off the artwork and colors used in the original production order, and may not match the garments already in use.

PRIMATEX SUBLIMATION

SIZING INSTRUCTIONS

Sizing Instructions

At GK, years of pattern development have taught us that the most accurate way to ensure proper fit is to rely on body measurements. An individual's perception of fit may vary greatly; however, the GK Fit is scientifically engineered to move with the athlete for optimal performance. Measuring athletes takes the guess work out of selecting their size. It is quick, easy, reliable, and helps to achieve a similar fit for all team members. The fit and feel of a garment will vary significantly based on the fabric type and embellishments used on the garment. To continue to provide the "GK fit" we use our size charts when ordering garments. The following size charts have been thoroughly evaluated to ensure that taking accurate athlete measurements will result in the correct size being ordered. To select the correct size, reference the appropriate GK size chart for the style being ordered to determine which size best corresponds to the athlete's measurements. When an athlete's measurement contains a partial inch, always round up to the next full inch. If an athlete's measurements fall across two sizes, order the larger size. For more clarification, contact your sales rep or our customer service department. Remember, special order items are not returnable.

How to Measure

The goal of measuring is to determine the correct size to order for each athlete. Accurate measurements are vital to the proper fit of your athlete's apparel. Please make sure that all athletes are wearing fitted workout apparel during the measuring session.

1. **CHEST MEASUREMENT:** Measure the chest of the athlete while their arms are down at their sides and at the fullest part of the chest. Your measuring tape should always be parallel to the floor while taking the measurement.
2. **WAIST MEASUREMENT:** When measuring the waist, wrap the tape at the natural waistline which is the narrowest part of the waist. If you are having trouble locating the natural waist, have the athlete bend to the side. The natural waist is where the body bends. Again, the measuring tape should always be parallel to the floor while taking the measurement.
3. **HIP MEASUREMENT:** Take the hip measurement at the fullest part of the buttocks with the athlete's feet together. Ensure that the tape measure is parallel to the floor.
4. **TORSO MEASUREMENT:** Take the torso measurement from the center of the shoulder, down the torso, through legs, and back to the shoulder. This is the most important measurement.
5. **INSEAM MEASUREMENT:** The length of the leg from the crotch to one inch above the floor. Measure the athlete without shoes.

GROWING ROOM: GK uses 4 way stretch fabrics that have minimal shrink and exceptional stretch. THE FABRIC SHOULD FIT SNUG TO THE BODY AND NOT BE LOOSE. GK does not recommend up-sizing to allow for growing room. The fabric will stretch with the athlete while they grow.

SIZE CHARTS

Special Order Sizes For Men's Competitive Wear

ADULT: XS - S - M - L - XL - 2XL - 3XL - 4XL
CHILD: XS - S - M - L - XL

Special Orders can now be placed by mail, fax, phone or online, using UDESIGN360 If placing your order by phone, please be prepared to finalize your order by providing your payment information.

SIZING

INSTRUCTIONS

At GK, years of pattern development have taught us that the most accurate way to ensure proper fit is to rely on body measurements. An individual's perception of fit may vary greatly; however, the GK Fit is scientifically engineered to move with the athlete for optimal performance. Measuring athletes takes the guess work out of selecting their size. It is quick, easy, reliable, and helps to achieve a similar fit for all team members.

The fit and feel of a garment will vary significantly based on the fabric type and embellishments used on the garment. Heavy embellishments and appliques reduce the stretch so the sizing sample may not fit or feel like the garment ordered for the team. To continue to provide the "GK fit" we use our size charts when ordering garments.

The following size charts have been thoroughly evaluated to ensure that taking accurate athlete measurements will result in the correct size being ordered. To select the correct size, reference the appropriate GK size chart for the style being ordered to determine which size best corresponds to the athlete's measurements. When an athlete's measurement contains a partial inch, always round up to the next full inch. If an athlete's measurements fall across two sizes, order the larger size.

* Long and Short torso options available for an additional cost

How To Measure

The goal of measuring is to determine the correct size to order for each athlete. Accurate measurements are vital to the proper fit of your athlete's apparel. Please make sure that all athletes are wearing fitted workout apparel during the measuring session.

- 1. CHEST MEASUREMENT:** Measure the chest of the athlete while their arms are down at their sides and at the fullest part of the chest. Your measuring tape should always be parallel to the floor while taking the measurement.
- 2. WAIST MEASUREMENT:** When measuring the waist, wrap the tape at the natural waistline which is the narrowest part of the waist. If you are having trouble locating the natural waist, have the athlete bend to the side. The natural waist is where the body bends. Again, the measuring tape should always be parallel to the floor while taking the measurement.
- 3. HIP MEASUREMENT:** Take the hip measurement at the fullest part of the buttocks with the athlete's feet together. Ensure that the tape measure is parallel to the floor.
- 4. TORSO MEASUREMENT:** Take the torso measurement from the center of the shoulder, down the torso, through legs, and back to the shoulder. This is the most important measurement.
- 5. INSEAM MEASUREMENT:** The length of the leg from the crotch to one inch above the floor. Measure the athlete without shoes.

UDesign. U Deserve Extraordinary.

With over 40 years of experience, we not only know what you need, we know what you deserve. That's why at GK, we do the hard work for you. From following trends, to designing top-of-the-line apparel, to providing exceptional customer service, we do it all for "U". With infinite possibilities®, your dreams become extraordinary realities.

Start designing your new apparel today!

1. Made to Order Designs

Start by selecting from hundreds of competition and tank leotards. Choose your fabric, color, embellishments, and details with our revamped UDesign360 design studio at gkelite.com. What you want, is what you'll get – exceptional leotards and apparel with quick delivery timelines and the quality you deserve.
